Company Recruitment team
Bristol-Myers Squibb

June 26, 2015

Dear Sir or Madam,

I am a new graduate student beginning to study epidemiology and biostatistics at the University of South Florida starting in the fall of 2015. I am currently employed with a local e-commerce company, but am hoping to find employment related to my studies.

As a major pharmaceutical company and one of the newer employers in the Tampa Bay area, it is my hope that Bristol-Myers Squibb may have opportunities available that are both relevant to my studies and flexible enough to accommodate them. My undergraduate degree is in mathematics and I have considerable experience in statistical and data analysis using R, Minitab, and Excel.

Thank you for your consideration.

Yours faithfully,

Justin Shuman
